Appendix 1: FINA WP Rule 11.3 re Extra Time and note on the procedures for penalty shoot outs

WP 11.3 Should the scores be level at full time in any game for which a definite result is required, any continuation into extra time shall be after an interval of five minutes. There shall then be played two periods each of three minutes actual play with an interval of two minutes for the teams to change ends. If at the end of the two periods of extra time the score is equal, there shall be a penalty shoot out to determine the result.

If a penalty shoot out is necessary, the following procedure shall be followed:

- if it involves the two teams having just completed a game, the shoot out will begin immediately and the same referees will be used;
- otherwise, the shoot out will occur 30 minutes following the completion of the final game of that round, or at the first practical opportunity. The referees involved in the most recent game of that round will be used, provided they are neutral;
- if two teams are involved the respective coaches of the teams will be requested to nominate five players and goalkeeper who will participate in the penalty shoot out; the goalkeeper may be changed at any time provided the substitute was listed amongst the team list in that game;
- the five players nominated will be required to be listed in order and that order will determine the sequence in which those players will shoot at their opponents goal; the sequence cannot be changed;
- no players excluded for the game are eligible to be listed amongst those players to shoot or substitute as goalkeeper;
- if the goalkeeper is excluded during the penalty shoot out, a player from the nominated five players may substitute for the goalkeeper but without the privileges of the goalkeeper; following the taking of the penalty shot, the player may be substituted by another player or alternate goalkeeper;
- shots will be taken alternately at either end of the pool and all players with the exception of the player shooting and defending goalkeeper will be required to be seated on team bench;
- the team to shoot first will be determined by toss;
- should teams still be tied following the completion of the initial five penalty shots, the same five players shall then take alternate shots until one team misses and the other(s) score.
- if three or more teams are involved, each team will shoot five penalty shots against each of the other teams, alternating at each shot. The order of the first shot will be determined by draw.]

Appendix 2: Tie Breaking

- 1 If two (2) teams shall have equal points, further classification shall be established as follows:
 - 1.1 The team winning the game between the two (2) teams shall be placed higher.
 - 1.2 If the game between the two (2) teams resulted in a tie, a further classification shall be established based on their results against the other teams including tied teams in order of their ranking; first based upon goal difference, and next, based upon goals scored. The comparison shall be made first, compared to the highest team or tied teams, and then, if still tied to the next highest team, and so on.
 - 1.3 If they are still tied, the tie shall be resolved by each team shooting five penalty shots at its opponent's goal in alternate succession. The first team shall take its first penalty shot and then the other team shall take its first penalty shot, etc. If a tie shall exist after that procedure, each team shall then take alternate shots until one team scores and the other misses. Different members of the team must shoot each shot. The procedure shall be conducted following the final game of that round or at the first practical opportunity.
- 2 If three (3) or more teams shall have equal points, further classification shall be established as follows:
 - 2.1 Any time during the application of this Section 2, when the number of the then tied teams is reduced to two (2), Sections 1.1, 1.2 and 1.3 shall be followed.
 - 2.2 The results among the tied teams shall determine the placings. The comparison shall be made upon first, the points of the games among them, next, the goal difference, and next, based upon goals scored.
 - 2.3 If more than two (2) teams are then still tied, a further classification shall be established based on their results against the other teams including tied teams in order of their ranking; first, based upon goal difference, and next, based upon goals scored. The comparison shall be made first, compared to the highest team or tied teams, and then, if still tied, to the next highest team or tied teams, and so on.
 - 2.4 If they are still tied, the tie shall be resolved by each team shooting five penalty shots at its opponent's goal in alternate succession. The first team shall take its first penalty shot and then the other team shall take its first penalty shot, etc. If a tie shall exist after that procedure, each team shall then take alternate shots until one team misses and the other(s) score. Different members of the team must shoot each shot. The procedure shall be conducted following the final game of that round or at the first practical opportunity.
